Each panel - 60 x 30 x 42 cm
Units per box - 8

Studio - Poland

FEATURES Mega Fuser Bass Trap

Bass Traps are considered to be one of the best optimized solutions when treating low frequencies. They are also an excellent complement to other acoustic products.

The unique shape of the Mega Fuser Bass Traps allows you to minimize the dramatic effects that result from Resonating Waves, commonly associated with the “boomy” sound often heard in untreated rooms.

APPLICATIONS Mega Fuser Bass Trap

Listening Rooms, Home Theaters, Recording and Broadcast Studios, Post Production Studios, Performance Spaces, Rehearsal Rooms, Conference and Teleconference Rooms, Public Spaces, Auditoriums, etc.
