

PULSAR PANEL

STUDIO Line

Ref. - V00010
EAN13 - 5600217588237

Box - 63 x 63 x 62 cm
Weight - 7.3 Kg
Each panel - 60 x 60 x 5.7 cm
Units per box - 16

Radio - Lebanon

FEATURES Pulsar Panel

Designed to fit any area from small to large, in any kind of room requiring acoustic absorption treatment, the Studio Line is the most suitable option when budget is limited. The difference between the cavities allows a better distribution of sound energy across the room (diffusion effect) turning the Pulsar panel into a great solution in the treatment of Reflection Decay Time. The Pulsar panel can be displayed in a pattern or in single units. Pulsar panels are also available in mixed packs, including Bass traps - Mix Kit Pulsar

Vicoustic's Pulsar panel offers an easy-to-install, cost-effective solution for any kind of room requiring acoustic absorption treatment. The panel has excellent absorption capabilities as well as providing an effective amount of diffusion.

Suitable for use in both small and large spaces, Pulsar panels can either be used in a pattern, or as single units.

APPLICATIONS Pulsar Panel

Listening Rooms, Home Theaters, Recording and Broadcast Studios, Post Production Studios, Performance Spaces, Rehearsal Rooms, Conference and Teleconference Rooms, Public Spaces, Auditoriums, etc.
