V//COUSTIC

INNOVATIVE ACOUSTIC SOLUTIONS

A photograph of a Mediterranean-style building with a green door and a large olive tree. The building has a white facade with a small crest above the arched doorway. A large, leafy olive tree is on the left, and a terracotta pot sits on the ground in front of the door. The scene is set in a sunny, outdoor environment.

Mediterranean

A painter's dream, with a rich palette of colors that captures the essence of this enchanting region. The warm golden hues of the sand, and the verdant greens of the olive trees and cypress groves create a stunning tapestry of natural beauty.

Moon

A celestial wonder that never ceases to captivate us with its ever-changing colors. From the bright white of a full moon to the cool blue of a moonlit night, each hue is a reminder of the beauty and mystery of the universe.

A photograph of a Venetian canal scene. In the foreground, a gondola with a gondolier in a striped shirt and passengers is visible. The water reflects the warm colors of the buildings and the sky. In the background, more colorful buildings line the canal, and a sign on the left wall reads "FOUR DE LA PRISON".

Venice

A city of unparalleled charm and beauty, with colors that evoke a sense of romance and wonder. From the warm shades of terracotta and ochre to the vibrant colors of the markets, each color is a reminder of the city's rich history and cultural heritage.

Vixagon VMT Collections

Introducing three new collections to our well-known Vixagon VMT, the hexagonal-shaped acoustic panel. Using four different colors or patterns in the same box gives you greater design flexibility, and you can create countless shapes on walls and ceilings.

Made with recycled sound-absorbing materials, the Vixagon is designed to enhance the acoustics of any space while adding a stylish touch to the decor.

The Vixagon VMT Collections are packed in a really innovative way: we are using the same material as the product itself as packaging material. This will give the bonus of having extra Diamond shapes that can be used in conjunction with your Vixagon to create your artwork. These new versions of the Vixagon VMT come in boxes of 12 hexagonal units.

Dimensions: 350 x 303 x 20mm / 13.7" x 11.9" x 0.8"

Raw Material: VicPET Wool

Scratch Resistance and Washable: Yes

Acoustic Performance: Medium and High Frequencies Absorption
NRC: 0.55

Fire Rating: Europe: Euroclass B - s2, d0; USA: Class A (ASTM-E84)

Installation: Wall and Ceiling, using Flexi Glue Ultra
