

VicTiles 3D MidMod PS WS

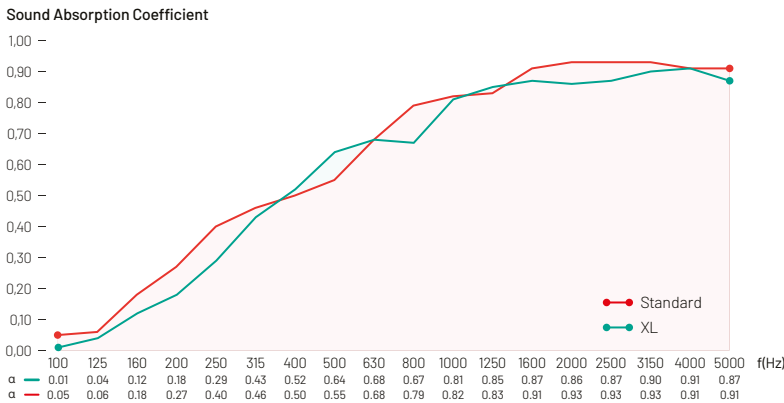

Vicoustic's product designers created the VicTiles 3D, a new line of solutions driven by the unique qualities of PET HD. VicTiles 3D consists of four identical acoustic tile shapes, engineered to be mixed and matched for endless design possibilities.

Inspired by the iconic mid-century design movement of the 1950s, MidMod pays homage to a style defined by clean lines, bold geometric patterns, organic curves, and a seamless integration of form and function.

This era emphasized simplicity, innovation, and the use of new materials – principles that align perfectly with the versatility and sustainability of PET HD.
